

The Free AI Audit — Our Cold Open

One page of pictures. Two pages of words. Zero excuses. This runs THIS WEEK.

The whole process is five steps. Here is the picture:

Nobody hunts for a button. Save the file, the machine does the rest.

What it is & why we do it

1 WHAT IT IS

When people need a roofer, a dentist, or a med spa today, a lot of them don't Google it — they **ask ChatGPT**. Our machine asks ChatGPT, Gemini, and Perplexity the exact **7 questions** a business's customers ask (like *"best med spa in Newport Beach"*), and **screenshots every answer**. Then it counts: out of 21 answers, how many times was that business named? That count + those screenshots = **the free AI audit report**. It already runs every month for us — this week we point it at leads.

2 WHY WE DO IT

Because it's the strongest opening line we own, and it costs us nothing to make:

*"I asked ChatGPT for the best med spa in Newport Beach. **You weren't mentioned.** Your competitor was — **three times.** I've got the screenshots. Want to see the rest?"*

Nobody hangs up on that. Nobody deletes that email. It's not an opinion — it's **their own absence, with receipts**. And the fix we sell (AI Search Visibility, \$750/mo) is the exact machine that made the report. The report is the demo, the pitch, and the proof — in one PDF the machine builds while we sleep.

Every audit we send is a sales call that opens itself. That's why.

Guardrail that never moves: we show what AI says today — we never promise rankings or results.

Which leads get it — and who does what

3 WHICH LEADS? USE THIS. DON'T OVERTHINK IT.

✓ RUN IT ON

- **The 4 warm Pipeline leads first** (Sammy's Electrical, Modern Roofing, Culver City Roofing, My Local Roofer CA)
- Any **local service business** in a niche on our Industry Matrix (med spa, dental, roofing, HVAC, plumbing, law, vet, salon...)
- Anyone who gives Joevan an **email on a cold call** — this IS the "free audit" he promises
- Any **Game Plan Call on the calendar** — run it BEFORE the call so Chosen walks in with receipts

✗ SKIP

- **Paying GEO clients** — they already get it monthly
- **National chains / franchise HQs** — we sell local
- Businesses with **no website** or outside our niches
- Anyone Chosen says skip

THIS WEEK — FOUR NAMES, FOUR JOBS

WHO	BY WHEN	EXACTLY WHAT YOU DO
Daniel	Wed	Pick 5 leads using the green box. Post in #cs-ops: business name · city · niche key (niche keys are in the Industry Matrix doc). Tag Abdullah.
Abdullah	Same day	Open geo/clients.json →  pencil icon → add one block per lead (name · city · niche) → Commit changes. That's the whole job — saving the file starts the audit. Reports post to #cs-ops on their own ~15 min later.
Daniel	Thu	Open each report → run the 5-check QA (right business? screenshots clean? math holds? no promises? story reads?) → send the good ones to Chosen for  . Draft the short cover email.
Zion	Before any send	QA the cover email in your DM: every link on a keyword , no typos, plain-text rules respected.  or fixed version back within 2 hours.
Chosen	Thu/Fri	One  per report. That's his only touch — then it ships, and Joevan opens calls with it.

Friday's Results Report: audits run · sent · replies · calls booked. Numbers before narrative.
