50 Ad Hooks That Stop the Scroll.

Fill-in-the-blank opening lines for Facebook and Instagram ads, plus 3 prompts that write hooks for your business.

Your first line decides if anyone reads the rest.

People decide in about a second whether to keep scrolling. These 50 hooks are opening lines you fill in with your own business, offer and city. Pick five, run them, keep the winner.

1

Pick 5 hooks from different angles

One pain, one result, one curiosity, one proof and one offer hook. Different angles tell you what your customers care about.

2

Fill in the highlighted blanks

Use real details: your city, your real price, a real review. Specific beats clever every time.

3

Turn your favorite into a full ad

Use Bonus Prompt 2 at the back. Paste it into ChatGPT, Claude or Gemini (free versions work).

4

Test for 7 days, keep the winner

Run all five with the same picture and budget. The hook with the cheapest leads or clicks wins. Bonus Prompt 3 helps you read the results.

Pain	Result	Curiosity	Proof	Offer
Hooks 1–10	Hooks 11–20	Hooks 21–30	Hooks 31–40	Hooks 41–50

> **Keep it honest.** Only use numbers, reviews, deadlines and spot limits that are true. Fake urgency gets ads rejected and burns trust. Meta also restricts ads that call out personal traits like health or money problems, so talk about the situation, not the person.

Pain hooks

01

Name the problem before you name the product. People stop for a problem they recognize.

01 Still dealing with [PROBLEM] every [WEEK / MONTH]? There's an easier way.

02 The real reason [PROBLEM] keeps coming back. It's not what most people think.

03 Most [AUDIENCE] make this mistake with [TOPIC]. Here's how to avoid it.

04 Stop paying for [EXPENSIVE FIX] before you try this.

05 What nobody tells you about [TOPIC] until it's too late.

06 That small [ISSUE] turns into a [BIG, COSTLY PROBLEM] faster than you'd think.

07 Sick of [FRUSTRATION]? So were our customers. So we fixed it.

08 If [SITUATION] just happened, don't [COMMON MISTAKE] yet. Read this first.

09 The [SEASON] problem every [AUDIENCE] in [CITY] runs into.

10 You shouldn't have to [ANNOYING TASK] to get [BASIC RESULT].

TIP Use the exact words customers use when they call you. "My AC is blowing warm air" beats "HVAC performance issues."

Result hooks

02

Show the after. People buy the outcome, not the service.

11 How a [CUSTOMER TYPE] went from [BEFORE] to [AFTER] in [TIME].

Use a real customer story only.

12 Imagine [DESIRED OUTCOME] by [DATE OR EVENT].

13 [RESULT] without [THING THEY HATE].

14 Here's what [OUTCOME] actually looks like for a [AUDIENCE].

15 The [NUMBER]-minute [ACTION] that [RESULT].

16 Get [RESULT] this [WEEK / MONTH], even if [COMMON OBJECTION].

17 This is exactly what [PRICE] gets you at [BUSINESS].

18 Your [THING], but [CLEANER / FASTER / CHEAPER TO RUN].

19 Done in [TIME]. Built to last [TIME].

20 Picture your [SPACE / PROJECT] like this before [HOLIDAY / EVENT].

TIP Pair a result hook with a real photo of your own work. Stock photos make good hooks look fake.

Curiosity hooks

03

Open a loop the reader wants closed. Then actually close it in the ad. No bait and switch.

21 I almost didn't post this.

22 We don't usually share this, but [INSIDER TIP].

23 The [TOPIC] question we get asked most. The answer surprises people.

24 3 things I'd never do as a [YOUR PROFESSION].

25 Watch what happens when we [ACTION].

26 One change that made the biggest difference for our [CUSTOMERS].

27 [CITY], you need to see this.

28 Why we stopped [COMMON INDUSTRY PRACTICE].

29 The [ITEM] most people throw away that could [BENEFIT].

30 Most people [DO COMMON THING] the hard way. Here's the easy way.

TIP Curiosity hooks work best in video. Say the hook in the first 2 seconds and put it on screen as text too.

Proof hooks

04

Let your customers do the selling. Every number and quote here must be real.

31 "[SHORT REAL REVIEW QUOTE]" – [FIRST NAME], [CITY]

35 Rated [RATING] on Google by [NUMBER] neighbors. Here's why.

36 Why [CUSTOMER TYPE] keep coming back to [BUSINESS].

37 A real message we got from a customer this week:

38 Licensed, insured and serving [CITY] since [YEAR].

39 What [NUMBER] customers said about [SERVICE]. Unfiltered.

40 Our most requested [SERVICE], and why people keep asking for it.

TIP A screenshot of a real text or review as the ad image, with hook 37 as the first line, is one of the simplest ads to make.

50 Locals only: [OFFER] for [NEIGHBORHOOD] residents.

Bonus prompts

+3

Copy these into ChatGPT, Claude or Gemini. Replace everything in [BRACKETS] first.

1. Write 30 hooks for your business

You'll get 30 hooks across all 5 angles, ranked strongest first.

```
You are a direct-response copywriter who has written Facebook ads for local businesses
for 10 years.

My business: [BUSINESS + CITY]
What I'm promoting: [OFFER + PRICE]
Who it's for: [AUDIENCE]
What they're frustrated about: [MAIN PROBLEM]

Write 30 ad hooks, 6 for each angle: pain, result, curiosity, proof, offer. Each under
12 words. Then rank the top 5 and say why.

Rules: use only details I gave you. Don't invent numbers or reviews. Talk about the
situation, not the person's traits. No em dashes, no emojis, no hype words.
```

2. Turn your best hook into a full ad

You'll get 3 complete ads built on your hook, ready to paste into Meta.

```
You are a Facebook ads copywriter for small businesses.

Hook: [YOUR HOOK]
Business and offer: [BUSINESS, OFFER, PRICE]
Proof I have (real only): [REVIEW, NUMBER OF JOBS, YEARS IN BUSINESS]

Write 3 ads that start with this hook. For each: primary text (60 to 100 words),
headline (under 40 characters), and one call to action. Version A short, B story-
style, C bullet points. Then tell me which to run first.

Rules: problem before offer, one clear next step, write like a person talking to one
person.
```

Test & track

Run 5 hooks for 7 days with the same image and budget. Fill this in, then paste it into Bonus Prompt 3.

3. Read your hook test results

You'll get a plain-English verdict on which hook to keep and what to test next.

```
Here are my ad results after 7 days. Same image, same budget, different hooks:
[PASTE: HOOK, SPEND, IMPRESSIONS, CLICKS, LEADS FOR EACH AD]

Work only from these numbers and show your math. For each hook give cost per click and
cost per lead. Tell me which to keep, which to turn off, and if the sample is too
small to decide. Then suggest 3 new hooks in the style of the winner.
```

HOOK	ANGLE	SPEND	CLICKS	LEADS	COST / LEAD
#		$			$
#		$			$
#		$			$
#		$			$
#		$			$

RULE Don't judge a hook before it has had about $50 to $70 in spend, or about a week. Small numbers swing wildly. When in doubt, let it run.
