EAT 4 LIFE · WEEKLY EMAIL REPORT

Oct 12 – Oct 19

✅ WHAT WORKED

- Delivery was clean: 48 of 49 workflow emails delivered across 19 subject lines, and 18 of those 19 had 0 bounces.
- "You already have the obsession" sent most (4, all delivered); last week it sent 1.
- Pipeline hygiene list is unchanged but no new problems appeared.

⛔ WHAT DIDN'T

- "Nobody is coming to pick you": 3 sent, 1 delivered, 2 bounced. Last week it was 3 of 3 delivered.
- 0 form submissions (last week 2 on "Free Eat 4 Life Training Sign Up") and 0 appointments booked.
- No broadcasts went out (last week 3). Opens and clicks are absent this week (the status field only records delivery), so they are unknown, not 0%. Agency side was not pulled (no API token).

→ CHANGE THIS WEEK

- Schedule one broadcast to the Students list this week and remove the 2 bounced addresses behind "Nobody is coming to pick you" before it sends.

ⓘ **Opens and clicks aren't in this table.** GHL's per-message status only records delivery. They appear once the token has the email-stats scope.

PIPELINE MOVEMENT

Nothing changed stage this week.

⚠️ PROBLEMS DISTORTING THESE NUMBERS

- Paused campaign still holding 1227 queued contacts: "Feb 4th - The day you stop trading time for money" (2026-01-28)

- Pipeline "Chris Power dialer": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": 3 opportunities sit in a paid stage with $0 recorded — revenue from email can't be reported until values are entered.
- Pipeline "E4L": 338 of 368 (91.8%) still at "New Lead (Ebook/ads/etc)" — the pipeline isn't being worked, so stage-based conversion will read as zero.
- Pipeline "E4L": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": source is split by casing — "Xbox to Executive - Optin Form" vs "xbox to executive - optin form" — attribution counts are being divided.

Data gaps: Opens and clicks are NOT in these numbers: the per-message status field only records delivery. Bulk-campaign opens/clicks need the email-stats scope; workflow-email opens are UI-only.

Agency (E4L Services)

⚠️ **Not pulled.** no API token configured for this sub-account.

Numbers come straight from GHL's API, read-only, every Monday. Full data and history live in `reports/email/` in the repo. If a number looks wrong, the data file will show why.
