Two things we sell

Almost every problem in a business falls into one of two buckets — and they get solved in completely different ways. Knowing which one you're buying makes every number in this document make sense.

	SYSTEMS	CREATIVE
What it is	Infrastructure. Built into your business once, then it runs.	Production. Video and content made fresh every month.
What you get	A quiz funnel that captures leads. An AI that answers your phone. A chatbot that sells at 2am. A site that converts. Sequences that follow up forever.	AI-produced video ads, social cuts, and branded motion — delivered on a schedule, in your brand.
How it's priced	A flat monthly fee. Same price whether it handles 10 leads or 10,000.	By output. You choose how much gets made each month.
When it's done	Never — it keeps working. We maintain and improve it.	Never — attention is a treadmill. The month you stop is the month you disappear.
Where to look	Core Systems + the Expansion Menu.	The Content Engine, or a Creative Pack.

Most businesses need both. A funnel with nothing to advertise is a locked door. Great video pointing at a business that never answers the phone is money on fire. The order we recommend is on the last page — and it's the order that protects your budget, not ours.

START HERE

The Core Systems

Three systems that fix the three biggest leaks in any business: capturing leads, staying visible, and following up before your competition does. Each one runs on its own or stacks with the others.

SYSTEM	WHAT IT DOES FOR YOU	MONTHLY
Quiz Funnel Pages	An interactive quiz that pulls visitors in, learns what they need, and routes them to the right offer — capturing their contact on the way. Fresh quiz per promo + monthly optimization.	from \$500
The Content Engine ★	Your entire short-form video operation, handled: AI-produced UGC-style ads, branded motion graphics, and a month of social content — delivered on schedule, in your brand. You approve the look before we produce.	from \$497
AI Front Desk	Every DM, text, form fill, and missed call answered in under 60 seconds — then followed up until they book. Includes reactivating your old lead list: appointments from customers you already paid for.	from \$500

AI Front Desk also scales with you: \$500 Responder (one channel + follow-up sequence) · \$997 Front Desk (all channels + missed-call text-back + booking + list reactivation) · \$1,497 Growth Engine (everything + monthly reactivation campaigns, review requests, results report).

THE FLAGSHIP

Content Engine plans

Every plan is produced, reviewed, and delivered by us on a fixed monthly schedule. Start where you are — move up when the content is working. No long ramp, no minimum term dressed up as a discount.

	SPARK	CREATOR	STUDIO ★	CINEMA
Monthly	\$497	\$997	\$1,997	\$3,497
Best for	Getting started	Building a habit	Scaling what works	Full operation
AI video ads	1	2	5	8 + test variations
Social cuts / reels	4	8	12	20
Motion graphics	—	—	Intro/outro + lower-thirds	Full branded motion system
Content calendar	—	—	Monthly	Monthly + strategy call
Hero-grade premium shot	—	—	1 per month	Across the batch
Generation rounds	2 per piece	3 per piece	3 per piece	4 per piece
Revision rounds	1 per piece	1 per piece	1 per piece	2 per piece

Every plan includes: your approval at the script and key-visual stages before we produce anything · captions burned in · delivery in the formats each platform wants · a named producer who knows your brand.

Moving up a tier takes effect the next billing cycle — no re-onboarding, no setup fee, no penalty for moving back down.

ALREADY BUYING A SYSTEM?

Creative Packs

If you’re running our ads, funnel, or chatbot but you don’t have creative to feed them, a pack bolts straight on. It’s built purely to fuel the system you’re already running — ad creative and the cutdowns that test against it. No content calendar, no social cadence, no strategy call. Just fuel.

	FUEL	CAMPAIGN ★	LAUNCH
One-time	\$750	\$1,500	\$2,000
Best for	Testing a single offer	A full campaign with room to test	A launch, a new location, a season
AI video ads	2	4	6
Cutdowns / variations	4	8	12
Aspect ratios	Vertical	Vertical + square	Vertical, square, wide
Hook variations for testing	—	2 per ad	3 per ad
Generation rounds	2 per piece	3 per piece	3 per piece
Revision rounds	1 per piece	1 per piece	2 per piece
Turnaround	10 business days	14 business days	14 business days

Pack or Engine — how to choose

IF THIS IS YOU	BUY THIS
“I need creative so the ads I’m running have something to run.”	A Creative Pack — one-time, bolts onto what you have.
“I need to show up consistently every week, forever.”	The Content Engine — monthly, on a schedule.
“Both. I’m running ads and I’ve gone quiet on social.”	Content Engine as the base, a pack when you launch something.

Packs are one-time buys, not subscriptions. Order one whenever you need it. Existing system clients get pack pricing as shown — packs bought without an active E4L system are quoted separately.

SO YOU KNOW EXACTLY WHAT YOU'RE BUYING

How the Content Engine actually runs

AI video isn't a button. Every piece is directed — scripted, framed, shot, and cut — the same way a production crew would, just faster and without the crew. Here's the process, and where you get a say.

STAGE	WHAT HAPPENS	YOUR PART
1 • Script	We write the piece against your offer and your audience.	You approve the script. Changes here are free and instant.
2 • Key visual	We build the hero frame — the look, the framing, the feel — and send it to you before anything moves.	You approve the look. This is the cheapest place to change your mind.
3 • Production	We shoot it: camera rig, lens, motion direction, then generation rounds until the shot lands. Tests first, finals at full resolution.	Nothing needed — this is our part.
4 • Assembly	Cut, captioned, branded, and delivered ready to post.	Review the finished piece.
5 • Revision	One consolidated round of fixes, submitted together.	Send up to 5 specific changes in one list.

Generation rounds — what they are and why they're capped

- A **generation round** is one full attempt at producing a shot. Some land on the first pass; some need another look. Your plan includes a set number per piece.
- A **revision** is different — that's changing a piece after it's finished. Generation rounds happen during production; revisions happen after delivery.
- If a piece is still not right after its included rounds, additional rounds are **\$60 each** — no surprises, no scope creep.
- A brand-new creative direction after approval counts as a **new piece**, not a revision. Genuine errors on our side — wrong logo, typos, off-brand color — are always fixed free.

Why we tell you this up front: most agencies hide production limits until you've hit them. We'd rather you know exactly what's included, so the only conversation we ever have about your content is whether it's working.

ADD WHAT YOU NEED

The Expansion Menu — flat \$750/mo each

These are **systems** — built, run, and improved by us. Seven done-for-you services, one simple price. Add any of them to your core system for a flat **\$750/month each** — no tiers to decode, no surprise scope creep. Stack as many as your growth demands, drop them when you don't.

SERVICE	WHAT'S HANDLED	MONTHLY
Ads / Media Buying	We manage your paid campaigns end to end — strategy, setup, optimization — putting spend behind creative that's already proven.	\$750
Influencer Marketing & Management	The right creators talking about your brand: outreach, negotiation, deliverables, and content managed for you.	\$750
Content Management	Your posting handled — scheduling, publishing, community engagement, and keeping every channel consistently alive.	\$750
Email / Text Marketing Workflows	Automated sequences that nurture, sell, and win back customers — built, monitored, and improved every month.	\$750
Voice AI — Programming & Supervision	An AI that answers your phone, qualifies callers, and books them 24/7 — programmed to your business and supervised by our team.	\$750
Chatbot AI — Programming & Supervision	Website and social chat trained on your offers, answering and selling around the clock — with humans watching quality.	\$750
Website Redesign	Your site rebuilt to convert — modern, fast, on-brand, and maintained monthly so it never goes stale.	\$750

Why we sequence it this way: expansion services multiply what already exists. We recommend your core system runs first — great content and instant follow-up — so every expansion dollar works harder. It's the order that protects your money.

THE FINE PRINT, UP FRONT

À la carte & what's billed separately

À la carte add-ons

ADD-ON	DETAILS	PRICE
Extra ad pack	2 additional AI video ads beyond your plan's monthly quota.	+\$500
Creative Pack (add-on)	One-time creative to fuel a campaign or launch — Fuel \$750, Campaign \$1,500, Launch \$2,000.	from \$750
Extra generation round	One more production attempt on a piece still in progress.	+\$60
Rush delivery	Single piece produced and delivered within 48 hours.	+\$150
Extra revision round	One additional consolidated round (up to 5 specific changes) beyond your plan's included rounds.	+\$75
Long-form editing	Podcast, webinar, or event footage cut into clips and social content.	Custom
Additional quiz build	A new quiz funnel outside your plan's regular promo cycle.	Custom

How revisions work

- Feedback happens at the **script** and **key-visual** stages — before production — where changes are quick and free.
- Each included revision round = up to **5 specific changes, submitted together** in one list.
- Genuine errors (wrong logo, typos) are always fixed free. A new creative direction counts as a new piece.

Billed separately (pass-through costs)

- **Ad spend:** your media budget goes directly to the ad platforms (Meta, Google, TikTok) — our \$750 covers management, not the spend itself.
- **Influencer fees:** creator payments are negotiated on your behalf and paid by you — we manage the deal, you own the relationship.
- **Usage costs:** SMS/voice minutes and platform fees for AI agents are billed at cost as your volume grows.

Ready to build your game plan? Book a free 20-minute call — we'll find your biggest leak, map which system fixes it, and give you straight answers on pricing. If we're not the right fit, we'll tell you, and you keep the plan.
