EAT 4 LIFE · WEEKLY EMAIL REPORT

Nov 2 – Nov 9

✅ WHAT WORKED

- Students: "I mastered Liu Kang before I mastered ads" (Wed Nov 4) opened at 19.7% on 2,010 delivered, about 3x the other two sends (8.3%, 7.2% early). It's a personal, gaming-flavored subject on a **weekday**. Last week's top student email (17.93%) was a Sunday, so a weekday win points to the subject style, not just the day.
- Agency: "Would you let AI pay your invoices?" (Mon Nov 2) opened at 22.2% with 9 clicks, the most clicks of the three sends.
- The other two agency sends: "Could a robot find your prices?" 9.0% / 7 clicks; "My first client never saw a pitch deck" 13.5% (early) / 7 clicks.

⛔ WHAT DIDN'T

- Students: "Zelda comes back Thursday. Steal the idea." 8.3% / 2 clicks, and "Most new Stripe Atlas startups are one person" 7.2% (early) / 1 click. News-hook subjects stay in the 6-8% range.
- Student clicks are 1-5 per send on about 2,000 delivered, even for the 19.7% email (5 clicks). The ask isn't converting. Click rates aren't in this week's data, only counts.
- Sunday Nov 8 sends aren't in the numbers yet (the API can't read Bulk Actions). Agency side: only broadcast numbers; everything else isn't pulled (no API token). Students: 0 form submissions, 0 appointments, 1 ebook purchase ($9.95).

→ CHANGE THIS WEEK

- Write every student broadcast this week as a first-person personal or gaming-story subject like "I mastered Liu Kang before I mastered ads", with no news hook, and put at least two of them on weekday slots (Mon/Wed).

PIPELINE MOVEMENT

- E4L → Paid Ebook -X-box- Purchased: 1 moved, $9.95

⚠️ PROBLEMS DISTORTING THESE NUMBERS

- Paused campaign still holding 1227 queued contacts: "Feb 4th - The day you stop trading time for money" (2026-01-28)
- Pipeline "Chris Power dialer": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": 3 opportunities sit in a paid stage with $0 recorded — revenue from email can't be reported until values are entered.
- Pipeline "E4L": 338 of 371 (91.1%) still at "New Lead (Ebook/ads/etc)" — the pipeline isn't being worked, so stage-based conversion will read as zero.
- Pipeline "E4L": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": source is split by casing — "Xbox to Executive - Optin Form" vs "xbox to executive - optin form" — attribution counts are being divided.

Agency (E4L Services)

BROADCASTS THIS WEEK

Sent	Subject	Delivered	Open	Click
Mon Nov 2	Would you let AI pay your invoices?	351	22.2%	9 clicks
Wed Nov 4	Could a robot find your prices?	355	9.0%	7 clicks
Fri Nov 6	My first client never saw a pitch deck	355	13.5% (early)	7 clicks

"Would you let AI pay your invoices?" opened at 22.2%, the best agency rate so far: a short, direct question about the owner's own business. 13 bounces this week (some repeats); tagging them bounced and putting them on Email DND is waiting on Chosen.

Sent as GHL Bulk Action campaigns. Numbers from Daniel's weekly report, Nov 2–6 (GHL Statistics; Friday numbers taken a few hours after sending). Sunday Nov 8 sends not included yet, because the API can't read Bulk Actions.

Everything else on this side (forms, bookings, pipeline) not pulled: no API token configured for this sub-account.

Numbers come straight from GHL's API, read-only, every Monday. Full data and history live in `reports/email/` in the repo. If a number looks wrong, the data file will show why.
