

Sep 28 – Oct 5

✓ WHAT WORKED

- Opens and clicks are now in the data (last week they were blind). Delivery is clean: 55 workflow emails, all delivered, 0 bounced.
- "Welcome to the executive table, Burnett" is the only email with engagement: 1 sent, 1 opened, 1 clicked.
- The Xbox to Executive opt-in form got 1 submission, and 1 E4L opportunity moved to "Paid Ebook -X-box- Purchased" (\$37).

✗ WHAT DIDN'T

- 54 of 55 emails got 0 opens and 0 clicks. Top senders: "The job path is outdated" (7 sent) and "You already have the obsession" (4 sent), both 0 opens.
- Volume fell from 145 emails last week to 55 this week. Last week's "obsession" email had 35 sends, this week 4.
- 0 appointments booked. The \$37 purchase shows fromEmail 0, so no revenue is credited to email.
- Unchanged from last week: 338 of 368 E4L leads (91.8%) are still at "New Lead". The paused "Feb 4th" campaign still holds 1227 queued contacts. The Agency (E4L Services) side is not pulled: no API token.

→ CHANGE THIS WEEK

- Rewrite the subject lines and opening line of "The job path is outdated" and "You already have the obsession" in the next batch, since they have the most sends and zero opens. Also delete the paused "Feb 4th" campaign.

⚠ PROBLEMS DISTORTING THESE NUMBERS

- Paused campaign still holding 1227 queued contacts: "Feb 4th - The day you stop trading time for money" (2026-01-28)
- Pipeline "Chris Power dialer": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": 3 opportunities sit in a paid stage with \$0 recorded — revenue from email can't be reported until values are entered.
- Pipeline "E4L": 338 of 368 (91.8%) still at "New Lead (Ebook/ads/etc)" — the pipeline isn't being worked, so stage-based conversion will read as zero.
- Pipeline "E4L": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": source is split by casing — "Xbox to Executive - Optin Form" vs "xbox to executive - optin form" — attribution counts are being divided.

Agency (E4L Services)

- ⚠ **Not pulled.** no API token configured for this sub-account.

Numbers come straight from GHL's API, read-only, every Monday. Full data and history live in reports/email/ in the repo. If a number looks wrong, the data file will show why.
