EAT 4 LIFE · WEEKLY EMAIL REPORT

Oct 26 – Nov 2

✅ WHAT WORKED

- "Nobody was clapping when I moved to LA" opened at 17.93%, about **3x** every other student email. **But Sunday was also the best day on the agency list (31.91%).** So two things could explain it: the first-person confession subject, or Sunday itself. One week can't separate them.
- Delivery is clean: 100% delivered after Abdullah filtered out invalid contacts.

⛔ WHAT DIDN'T

- Three of four student emails opened at ~6%. About 120 of 2,000 people.
- **Clicks: 0.10–0.30% on all four.** That's 2–6 people per send, even on the email 360 people opened. Every one asked for the same thing: the book, free plus $9.95 shipping. Same ask, every email, and almost nobody takes it.
- The Students-side workflow emails (the old nurture sequence) show near-zero opens. They keep sending to people who never open, which drags down the domain the broadcasts share.

→ CHANGE THIS WEEK

- **Subjects (a real test, not a guess):** put a first-person confession subject from Chosen's real story ("I," a real moment, the unglamorous part, no news hook, like "Nobody was clapping when I moved to LA") on a **weekday** student slot, Monday or Wednesday. If it beats ~6%, the subject style is doing it. If only Sunday wins again, it's the day. Keep Sunday strong on both lists either way: it was the top email on both. Never invent the moment. Use the story bank in voice.md or ask Chosen.
- **Agency:** keep doing what's working: 20.9% opens and ~2% clicks. "Would you let AI pay your invoices?" got the best clicks (2.56%) with a dated news hook and one clear rule. More of that shape.
- **Clicks:** not every student email asks for the book. At least one this week asks for a reply (one question, answered in a word), and one uses the possibility energy (STUDENT_POSSIBILITY_SERIES.md) so the click is "see what you can make," with the book as the way to learn it.

...and 11 more subject lines with fewer sends. Full list in the archive.

PIPELINE MOVEMENT

Nothing changed stage this week.

⚠️ PROBLEMS DISTORTING THESE NUMBERS

- Paused campaign still holding 1227 queued contacts: "Feb 4th - The day you stop trading time for money" (2026-01-28)
- Pipeline "Chris Power dialer": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": 3 opportunities sit in a paid stage with $0 recorded — revenue from email can't be reported until values are entered.
- Pipeline "E4L": 338 of 370 (91.4%) still at "New Lead (Ebook/ads/etc)" — the pipeline isn't being worked, so stage-based conversion will read as zero.
- Pipeline "E4L": source is split by casing — "11 Digital Careers - Sales Funnel" vs "11 digital careers - sales funnel" — attribution counts are being divided.
- Pipeline "E4L": source is split by casing — "Xbox to Executive - Optin Form" vs "xbox to executive - optin form" — attribution counts are being divided.

Agency (E4L Services)

BROADCASTS THIS WEEK

Sent	Subject	Delivered	Open	Click
Wed Oct 28	Everyone's panicking about the wrong number	356	17.42%	1.97%
Fri Oct 30	"I'll think about it" is a question	356	13.48%	1.97%
Sun Nov 1	The five who went quiet	351	31.91%	1.99%
Mon Nov 2	Would you let AI pay your invoices?	351	20.80%	2.56%

20.86% open overall (295 of 1,414 delivered), up 22.9% on the prior 7 days. About 2% clicks on every send.

Sent as GHL Bulk Action campaigns. Numbers from GHL → Marketing → Emails → Statistics, last 7 days, screenshots from Chosen 2026-11-02, because the API can't read Bulk Actions.

Everything else on this side (forms, bookings, pipeline) not pulled: no API token configured for this sub-account.

Numbers come straight from GHL's API, read-only, every Monday. Full data and history live in `reports/email/` in the repo. If a number looks wrong, the data file will show why.
